EDUCATION

- **Department of Computer Science and Engineering, University of Dhaka** Dhaka, Bangladesh
Master of Science in Computer Science and Engineering
CGPA: 4.00/4.00 (Ranked 1st in the class) Jan 2019 - Sep 2021
- **Department of Computer Science and Engineering, University of Dhaka** Dhaka, Bangladesh
Bachelor of Science in Computer Science and Engineering
CGPA: 3.85/4.00 (Ranked 1st in the class)(Course List) Jan 2015 - Dec 2018
- **Notre Dame College** Dhaka, Bangladesh
Higher Secondary School Certificate
GPA: 5.00/5.00 2014
- **Ideal School and College** Dhaka, Bangladesh
Secondary School Certificate
GPA: 5.00/5.00 2012

TEACHING EXPERIENCE

- **University of Dhaka** Dhaka, Bangladesh
Lecturer, Full-Time
◦ **Courses Conducted:** Software Design Pattern, Micro-controller, Software Engineering. Apr 2023 - Current
- **East West University** Dhaka, Bangladesh
Lecturer, Full-Time
◦ **Courses Conducted:** Structured Programming, Algorithms, Artificial Intelligence. Feb 2022 - Mar 2023
- **University of Barishal** Dhaka, Bangladesh
Adjunct Faculty
◦ **Courses Conducted:** Integral Calculus, Ordinary and Partial Differential Equations and Series Solutions. Aug 2024 - Current

RESEARCH EXPERIENCE

- **TigerIT Bangladesh Limited** Dhaka, Bangladesh
Research Scientist
◦ **Responsibilities:** My projects mainly included,
 - * Statistical sensor data analysis.
 - * Rule-based algorithms and encoder-decoder with attention-based deep learning algorithms focusing on audio and natural language processing.Mar 2020 - Feb 2022
- **Cognitive Agents and Interaction Lab (CAIL)** Dhaka, Bangladesh
CO-Investigator
◦ **Responsibilities:** Supervised and contributed to diverse projects employing Deep Learning, Reinforcement Learning, and Agent-based Decision-making techniques. Played an active role in designing and implementing **COLAS**, an automated system for evaluating source code. 2023 - PRESENT
- **Data Mining and Machine Learning Research Lab** Dhaka, Bangladesh
CO-Investigator | Ex - Research Assistant
◦ **Responsibilities:** Designed and implemented novel pattern mining algorithms, representational techniques, and optimization strategies to address scalability, reliability, and resource efficiency in sequential and time-series pattern mining. Developed methods and metrics for robust correlation analysis and effective cluster generation. 2018 - PRESENT
- **Data and Design Lab** Dhaka, Bangladesh
Research Assistant
◦ **Responsibilities:** Worked on three main projects focused on policy-making and statistical analysis:
 - * Bangladesh Quality of Life Indicators (**BDQOL**): Developed Visualization tool, data collection, planning, and analysis.
 - * Nightlights for Economic Condition: Data processing, analysis, and manuscript preparation.
 - * Newspaper Data Analysis to Understand Coronavirus Awareness: Data collection, analysis and manuscript preparation.2019 - 2021
- **Bangladesh Rural Advancement Committee (BRAC)** Dhaka, Bangladesh
Junior Consultant
◦ **Responsibilities:** In this project, my teammates and I designed a system to uniquely identify beneficiaries accessing various BRAC services, using only basic information despite challenges like repetition, spelling errors, and variations. Apr 2019 - Sep 2019

HONORS AND AWARDS

- **Dean's Award, 2019**, for outstanding achievement from the Faculty of Engineering and Technology, University of Dhaka, Session 2014-15
- **Azfar Alam Memorial Gold Medal, 2019**, for achieving excellent results from the Department of Computer Science and Engineering, University of Dhaka, Session 2014-15.
- **Professor Lutfar Rahman Merit Award, 2022**, from the Department of Computer Science and Engineering, University of Dhaka for acquiring the first position in the batch in B.Sc.
- **Fellowship Scholarship**, from ICT Division, People's Republic of Bangladesh to conduct high-quality research that could keep an impact on the socio-economic life of the people of Bangladesh.

RESEARCH INTEREST

Data Mining, High-Performance Computing, Programming Systems, Deep Learning.

KEY SKILLS

- **Programming:** C++, C, Python, Java, SQL, Unix scripting
- **Machine Learning and Data analysis:** PyTorch, Keras, Tensorflow, Pandas, Numpy, SciPy, Scikit-learn, Gensim.
- **Python Framework:** Django, React Native, Flask
- **Software and Code Maintenance:** GIT, Docker
- **Web Development Language:** HTML5, CSS, Javascript, Bootstrap, PHP, React, Node.js, Express.
- **Operating Systems:** Windows, Ubuntu.
- **Database Management:** MySQL, Oracle SQL, PostgreSQL, Firebase.
- **Problem Solving:** Please find my StopStalk profile here.

EXTRA CURRICULAR ACTIVITIES

- **CSEDU Student's Club:** Assistant General Secretary(2014-2017).
- **ShoShikkha:** Worked as a writer and contributor in ShoShikkha which targeted to spread various aspects of educational knowledge among people of different ages in the native language Bangla.
- **Competitive Programming:** Participated in competitive programming till the third year during the undergraduate program. Attended ICPC Regionals Dhaka, 2017, ranked 21.

SELECTED PROJECTS

- **COLAS - Source Code Plagiarism Detector** | *Python, React JS*
A custom source code plagiarism detection module completely built from scratch. Currently, supporting source codes written in languages for C, C++, Java, and Python. A live version can be found in, *COLAS*.
- **COLAS - Contest Platform** | *Python*
An online live source code evaluation platform completely built from scratch harnessing parallel computation and system-centric optimizations. Designed custom schedulers, processors, and load-balancers for parallel computation to efficiently process multiple submissions simultaneously.
- **MSCLM-A** | *Python*
A Memory flexible language independent Sentence Completion module using Language Model based on Arpa file.
- **Bangla Sentiment Analysis** | *Python*
An undergraduate project for the Math for CS course to identify sentiments from Bangla sentences.
- **Bangla Pos Tagger** | *Python*
An undergraduate NLP Project to tag parts of speech in Bangla sentences.
- **Bangladesh Quality of Life Indicator (BDQOL)** | *HTML, Vanilla JS*
A visualization tool to demonstrate the socio-economic condition of Bangladesh based on SGD indicators.
